

# Flush Face Grease Connectors

*improved flowrate & superior performance*

*Get the highest possible flowrate to  
improve productivity without  
compromising safety or performance*

## HIGHER QUALITY WITHOUT HIGHER COST

With 100% stainless steel metal construction, FloMAX connectors are the longest lasting in the industry. These connectors can be connected and disconnected under pressure, an industry first demonstrating the FloMAX commitment to innovation.

## INCREASED FLOW RATES

FloMAX Flush Face Grease Connectors offer world-class performance and flow. With a 5000 psi working pressure, the 1" Female NPT connection offers maximum flow and adaptability.

## HIGH PERFORMANCE WITH LOW MAINTENANCE

Easy to clean with smooth actuation and ergonomic design; these connectors were designed for fast paced, heavy-duty maintenance professionals. FloMAX connectors incorporate an internally sealed ball lock mechanism to ensure trouble-free performance even in the harshest conditions.

## COMPREHENSIVE FUELING PROCESS SOLUTIONS

*that won't impact the environment or your bottom line*

FUEL OVERFILL PREVENTION SYSTEMS – MOBILE FUEL DEPOTS  
HIGH FLOW FUEL FILTRATION – FUEL/LUBE CONNECTORS  
FUEL NOZZLE SALES & REPAIR – DEF STORAGE/DISPENSING

## SUPERIOR DESIGN

Safety is always our highest priority so with that in mind, the receiving connector is designed with a built-in check valve providing a Fail Safe shut off. The FloMAX Grease connector can also be used with heavy viscous fluids such as 50W, 85W140, etc.

*Quality, Innovation & Value*
