Diesel Exhaust Fluid (DEF)

storage & dispensing solutions for heavy equipment

Increase safety and productivity with ground level filling and automatic dispensing systems

FLOW TECH FUELING

GROUND LEVEL FILLING

Maintaining three points of contact is impossible when fueling personnel have to refill DEF tanks by climbing on equipment while carrying a DEF container. Let FlowTech set you up with a DEF dispensing system that will enable ground level filling.

INCREASED FLOW RATES

FlowTech can design a DEF dispensing system capable of flow rates from 15 – 30 gpm utilizing an electric or air pump with a digital flowmeter and a quick connect dispensing nozzle

MOBILE OR STATIONARY SOLUTIONS

Whether you need a custom DEF storage tank/dispensing system for your fuel/lube truck or a stationary system to be located at your fuel island, FlowTech will design and construct a system to meet your specific needs. Let us help you deal with DEF without compromising safety and productivity.

COMPREHENSIVE FUELING PROCESS SOLUTIONS

that won't impact the environment or your bottom line

FUEL OVERFILL PREVENTION SYSTEMS - MOBILE FUEL DEPOTS HIGH FLOW FUEL FILTRATION - FUEL/LUBE CONNECTORS FUEL NOZZLE SALES & REPAIR - DEF STORAGE/DISPENSING

SUPERIOR DESIGN

There is a lot of DEF storage and dispensing equipment on the market today, but none is designed specifically for the surface mining industry. Don't waste your time and money on DEF systems that cannot withstand our industries harsh working conditions.

Quality, Innovation & Value
