

FlowTech Overfill Prevention System

Diesel Accumulation = MSHA Citation

**HIGH PERFORMANCE
LOW MAINTENANCE**

Remove the "spill factor" from fueling! Our Tank Overfill Prevention Systems greatly reduce fuel spillage and can be installed on mobile equipment or stationary bulk storage tanks. The systems are extremely reliable and require minimal maintenance.

**DIESEL ACCUMULATION
EQUALS MSHA CITATION**

Don't let obvious fuel accumulation on your mobile equipment give MSHA a reason to stop and take a closer look! FlowTech will conduct a free fuel audit of your entire fleet to identify possible fueling issues such as overfilling or premature shutdown. The results will be summarized in a concise report with actionable information to help you make informed maintenance decisions.

Let us help you avoid costly MSHA citations due to fuel accumulation. Schedule a **FREE** fueling equipment/process evaluation today!

COMPREHENSIVE FUELING PROCESS SOLUTIONS

that won't impact the environment or your bottom line

FUEL OVERFILL PREVENTION SYSTEMS – MOBILE FUEL DEPOTS
HIGH FLOW FUEL FILTRATION – FUEL/LUBE CONNECTORS
FUEL NOZZLE SALES & REPAIR – DEF STORAGE/DISPENSING

FASTER FUELING RATES

Increase productivity without compromising your safety or environmental profiles. FlowTech offers Tank Overfill Prevention Systems capable of handling flowrates up to 1200 gpm (4542 lpm).
